

HYALURONIDASE INJECTION AFTER CARE

Immediately after the treatment, you can apply an ice pack, as there may be mild swelling. Avoid any trauma to the area for up to 2-5 days.

It may take up to 2 weeks to see the full results of the treatment, so be patient.

Avoid picking, scratching, or pressing on the treated area.

Makeup may be used after the treatment.

You may shower directly after the procedure in tepid water. The treated area may be washed gently with a mild soap. Skin should be patted dry and NOT rubbed.

You may experience redness or bruising after the treatment.

Call RejuvenationMD with any questions or concerns you have after the treatment.
