

### **HYALURONIDASE INJECTION AFTER CARE**

Immediately after the treatments, you can apply an ice pack, as there may be mild swelling. Avoid any trauma to the area for up to 2-5 days.

It may take up to 72 hours to see the full results of the treatment, so be patient.

Avoid picking, scratching or pressing the treated area to achieve your best results.

Makeup may be used after the treatment

You may shower directly after the procedure in tepid water. The treated area may be washed gently with a mild soap. Skin should be patted dry and NOT rubbed.

You may experience redness or bruising after the treatment.

Call RejuvenationMD with any questions or concerns you may have after the treatment.
